Benefits

- Sturdy. You can confidently let your legs rest on the footrest.
- Angle adjustable. While seated, your legs and feet should comfortably rest at a 90° angle. If your desk and chair are not adequately adjustable, the footrest compensates for that.

- Height adjustable. Short legs or higher chairs stop being an issue if the footrest can be adjusted to the right height.
- Massaging bumps. Moving your feet along the bumpy surface can help prevent blood circulation problems.
- Smart exercise. 30 central rolls will encourage you to unconsciously move your feet all the time!
